JULY 2024

MESSAGE FROM THE PRINCIPAL

‘Genitive Aequitas’ Equality, Justice and Fairness.

These three simple but magical words are the cornerstone of World Order and Human Civilization.

Since times immemorial, mankind has been playing games to acquire power, wealth and recognition. This has happened through both fair and unfair means. Ironically, despite all the wisdom, injustice prevails across the planet. We are behaving unscrupulously not just with each other but also with other species.

Benjamin Franklin said “Justice will not be served until those who are unaffected are as outraged as those who are.”

We have to collectively call out against the inaction, the injustice and the inequity. We also must **focus our attention** to the chaos that is disrupting the world peace. Making attempts to understand it and finding mutually acceptable solutions should become the way to be for the youth, as they start participating and represent their presence. Because justice, **inclusion and equity** is everyone’s responsibility.

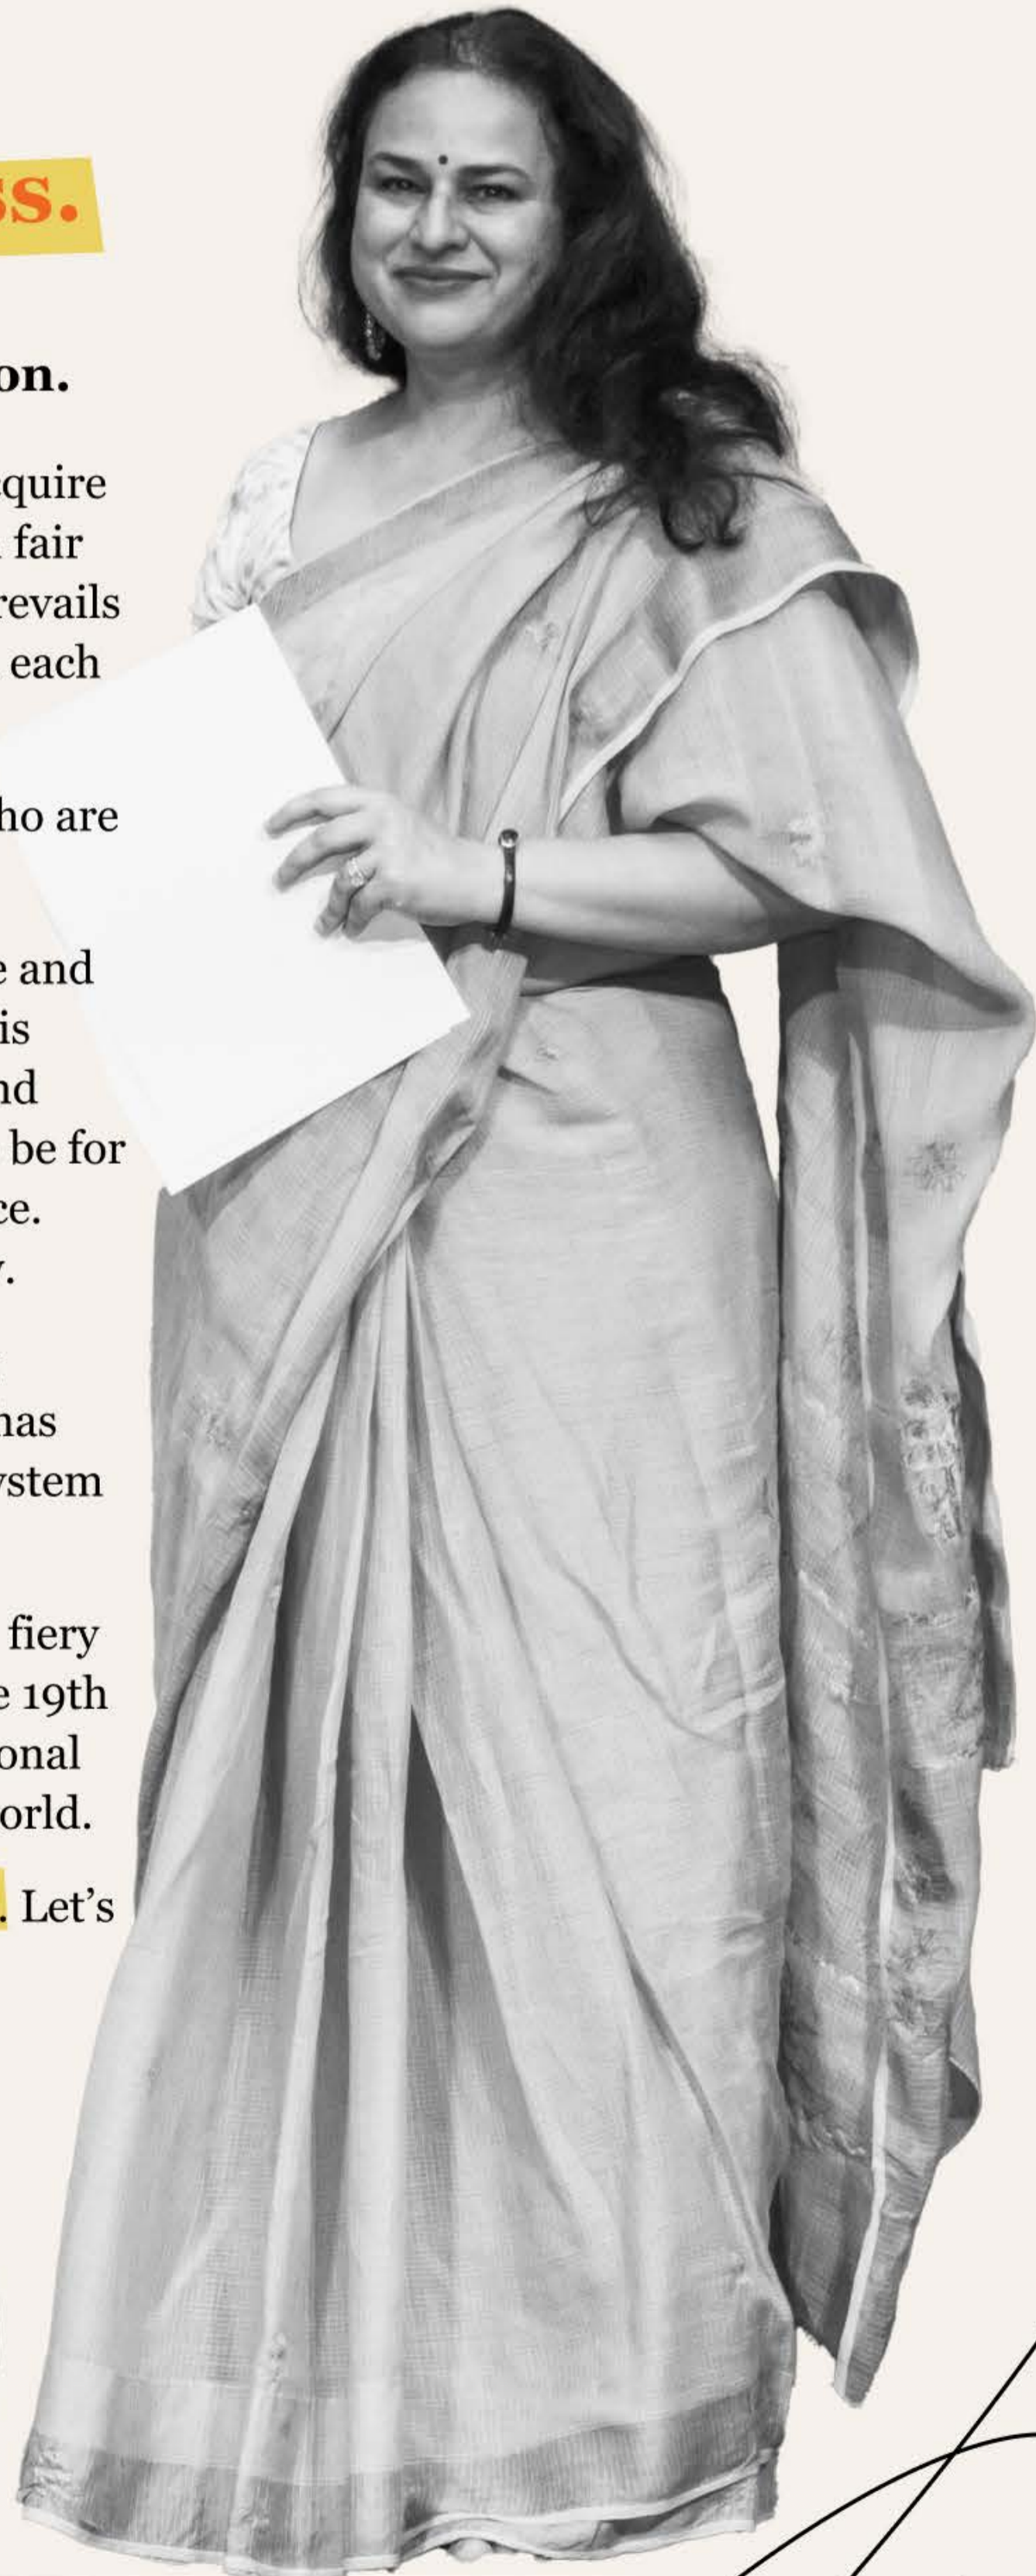

Pacific World School has always been a keen supporter of giving opportunities to the students to **get involved in world affairs**. It has been playing an active role in shaping perspectives and an Ecosystem of awareness.

‘PACMUN’ is one such empowering event. Stimulating agendas, fiery debates, invigorating analysis, in the committee sessions. On the 19th & 20th July, we invite your scholars to adorn the hat of International delegates to simulate the perspectives of countries around the world.

We are back and **this time we have more teeth to actuate impact**. Let’s together ‘move the needle’ on to things which matter the most!

Looking forward to seeing you.
